

## EASTER ISLAND MAPS

IGM (Instituto Geográfico Militar in Santiago), the same source as the Carta Geológica-Volcanica de Isla de Pascua (Geological-Vulcanological Map of Easter Island) by Oscar Gonzales-Ferran from the Center for Volcanological Studies, Chile, and sold on the EIF merchandise Web page ([http:// www.islandheritage.org/eifmerchandise.html](http://www.islandheritage.org/eifmerchandise.html)), has numerous other fascinating maps of Easter Island. There is a 60×80 cm (24"×31.5") 1:50,000 scale full island view map for 8,580 pesos (\$14.54); a 72×100 cm (28"×39") 1:25,000 scale three-dimensional island view for 8,390 pesos (\$14.22); a 60×80 cm (24"×31.5") 1:25,000 scale west side of the island for 8,580 pesos (\$14.54) with its companion east side (same size, scale, price); and a 53.5×75 cm (21"×30") 1:35,000 scale satellite photo of the island for 8,390 pesos (\$14.22). Maps can be ordered from the [www.igm.cl](http://www.igm.cl) Web site. Enter "isla de pascua" in the "buscar" (search) prompt and the list of maps appears. You can select a map, view a thumbnail, add items to your shopping cart, and place your order via credit card. Questions, which need to be conveyed in Spanish, can be directed to [clientes@igm.cl](mailto:clientes@igm.cl). Prices and currency conversion were accurate as of press time but subject to change without notice.
